Projects

Scientific Research Paper Recommendation System (Jan 2024 - May 2024)

- Developed a hybrid recommendation system for suggesting research papers.
- Implemented content-based filtering using TF-IDF scores and weighted ranking.
- Incorporated collaborative filtering through citation analysis to enhance recommendations.
- Combined both approaches to leverage article similarity and citation patterns.
- Resulted in more accurate and impactful paper recommendations for academic users.

Shopi Website (Jul 2023 - Sep 2023)

- Designed and developed a dynamic e-commerce website using HTML, CSS, JavaScript, and jQuery.
- Implemented a responsive user interface to provide a seamless shopping experience across devices.
- Developed a user authentication system with registration, login, and password reset functionalities.
- Connected the website to a backend database using MySQL for storing user and product information.
- Conducted rigorous testing to ensure compatibility and performance across different browsers.
- Optimized website performance through code refactoring and efficient use of web resources.
- Received positive feedback from users for its intuitive design and smooth user experience.

Achievements

- Earned an Honors Degree.
- Received Prathibha Award and Merit Scholarship at school level.

Certifications

- Social Network (NPTEL)
- Cloud Computing (NPTEL)
- Python Programming (Microsoft)
- IEEE Coding Challenge
- JavaScript Coding Challenge (HackerRank)
- Project Management (Coursera)

Languages

- Telugu
- Hindi
- English

Hobbies

- Learning New Technologies
- Participating in Hackathons and Coding Competitions
- Soft Skill Development

I hereby declare that the details mentioned above in my resume are correct to the best of my knowledge and belief. I bear the responsibility for any mistake in the future.
